

Established in 1999, CareerNet is the leading provider of Talent Acquisition and Management solutions to the Technology, Knowledge Services, Banking and Financial Services sectors in India. The leadership team has several decades of collective experience working for global services and consulting firms and are alumni of premier educational institutions in India.

CareerNet aims to provide fast, simple and cost-effective solutions for our clients, through strategic advice and solutions in the areas of Recruitment Process Management and Outsourcing, Talent Acquisition Strategy and Planning, Compensation Advisory, University Recruitment, Leadership Acquisition, Talent Branding, Role Design, Performance Management Systems, Outplacement and Exit Management.

## WHAT MAKES US DIFFERENT?

### Network of high quality professionals

At CareerNet, we proactively build and maintain enduring relationships with high quality professionals through the lifecycle of their careers. We carefully nurture these relationships with the support of our world-class technology platform and provide personalized attention to each applicant; advising them on their career paths and helping them navigate through the recruitment process, enriching the overall relationship.

### Innovation

At CareerNet, we have always believed in creating newer business models and delivery mechanisms that create enhanced value for our clients and candidates. Some of our pioneering initiatives are redefining talent acquisition and management is done in India.

### High quality technology-enabled experience

Investments in a scalable and robust recruitment technology platform, has made CareerNet a highly effective partner for our clients as well as a highly efficient operation. Users of the platform operate out of multiple regions to deliver consistent and high quality real time services to customers and candidates alike and contribute to their success.

### Broad spectrum of customized solutions

CareerNet has a breadth of solutions which are aimed at bringing together the best minds and the best organizations together. These talent acquisition solutions are custom-built to address the specific situation and span across the spectrum from university talent to occupants of the boardroom.

### Risk-reward based services partnership

CareerNet works on a risk-reward based partnership with our clients. We determine the balance between service levels and pricing, and incorporate this into our engagement models which are supported by robust service management processes.

## OUR CUSTOMERS

CareerNet works with a broad range of clients, from early-stage startups to large global organizations as well as highly respected Indian corporations in the Technology, Knowledge Services, Banking and Financial Services sectors in India. We are innovatively organized to provide very high quality of service to clients across this spectrum of clientele.

## OUR TEAM

CareerNet is led by a team of highly talented and experienced professionals who have extensive experience in the technology, consulting and services industry. The team has an outstanding track record and has in-depth expertise in the industry domains that we operate in. Every one of our 250+ employees across various locations in India plays a critical role that enables the success of our clients.
